### 4. FIRST AID MEASURES

**Description of First Aid Measures****General**

In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

**Inhalation**

Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.

**Eyes**

Immediately flush the eyes with large amounts of water for at least 15 minutes, alternately lifting the upper and lower eyelids. After 5 minutes, if appropriate, remove contact lenses and continue flushing the eyes for an additional 15 minutes. Call a physician at once.

**Skin**

Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.

**Ingestion**

Do not induce vomiting and get medical attention.

**Most Important Symptoms and Effects, Both Acute and Delayed****Overview**

Health effects of exposure:

**Inhalation**

Inhalation of dust may cause respiratory irritation. Chromium and certain compounds of chromium has been

reported to cause damage to the lungs, resulting in cumulative damage.

**Ingestion**

May cause gastric disturbances.

**Skin**

May cause sensitization on repeated contact. Dermatitis has been reported from repeated contact with chromium compounds.

**Eyes**

Contact may cause irritation.

**Chromium**

The Department of Health and Human Services (DHHS), the International Agency for Research on Cancer (IARC), and the EPA have determined that the hexavalent form of chromium, chromium (VI), CAS# 18540-29-9 is a known human carcinogen. This compound is the trivalent form of chromium, and not the hexavalent form of chromium. See Section 2 for further details.

**Inhalation**

May cause allergy or asthma symptoms of breathing difficulties if inhaled.

**Skin**

May cause an allergic skin reaction.

## 5. FIREFIGHTING MEASURES

**Extinguishing Media**

Water, CO2, dry chemical

**Special Hazards Arising from the Substance or Mixture**

Hazardous decomposition: Burning may produce carbon, nitrogen and sulfur. Avoid breathing dust/fume/gas/mist/vapors/spray.

**Advice for Firefighters**

Unusual fire/explosion hazards: Organic dusts have potential to be explosive with static spark or flame initiation. Adequate ventilation and clean-up must be maintained to minimize dust accumulation. Firefighters should wear appropriate equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

ERG Guide No. ----

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions, Protective Equipment and Emergency Procedures**

Put on appropriate personal protective equipment (see Section 8).

**Environmental Precautions**

Do not allow spills to enter drains or waterways. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

**Methods and Material for Containment and Cleanup**

Wear prescribed protective equipment. Vacuum or sweep up material and place in a designated container immediately. Prevent run off to drains, sewers or other public waterways. Waste material may be disposed of by a licensed waste facility contractor.

## 7. HANDLING and STORAGE

### Precautions for Safe Handling

Avoid contact with eyes, skin, and clothing. Eating, drinking, and smoking should be prohibited in areas where this material is handled. Wash hands and face before eating, drinking, and smoking. Do not expose to friction or shock. See Section 2 for further details. - [Prevention]:

### Conditions for Safe Storage, Including Any Incompatibilities

Handle containers carefully to prevent damage and spillage. Incompatible materials: No data available. Store in original container, in a cool, dry location. Close package tightly after removal of product. Avoid dust formation. Keep away from sources of ignition. See Section 2 for further details. - [Storage]:

### Specific End Use(s)

No data available.

### Exposure Controls

#### Respiratory

An appropriate NIOSH approved respirator for dust should be worn. Use type N95 (US) or type P1 (EN 143) dust masks.

#### Eyes

Wear safety glasses with side shields.

#### Skin

Wear a rubber or plastic apron. Wear clothing suitable to avoid skin contact and clean after every shift. Wear impermeable rubber or plastic gloves.

#### Engineering Controls

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

**Other Work Practices**

Eye wash fountain and emergency showers are recommended. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
